Shining with all his might:
He did his very best to make
The billows smooth and bright —
And this was odd, because it was

1961-1962

West Kildonan Collegiate Institute

West Kildonan, Manitoba

principal's message

I have always been one to offer praise when praise is due. This year, I feel that you, the student body and staff, deserve a special word of commendation.

Our first term was a very difficult one indeed. The construction of our long awaited gymnasium caused a great deal of inconvenience and curtailing of activities, but you reacted as good sports — you played the game! It is certainly true that adversity brings out either the best or worst in people, and I am proud to say that you did not let me or your school down. We sailed smoothly through troubled waters!

What a busy and eventful second term we had! I was very impressed with the new venture undertaken this year — the operetta. We all hope that this will become an annual project. The success of our magazine drive, the school tea, our commencement exercises, our drama night, and our sports activities are all testaments of your effectiveness as a student body.

Now you have only to prove yourself in the final and most important task of all — your final examinations. I have always tried to impress on all of you that you are here primarily to learn, and I hope you have learned your lessons well. West Kildonan Collegiate has an admirable academic record — it is up to you to maintain it.

May I take this final opportunity to thank the editor and staff of the yearbook for this fine edition. My very best wishes to you all for the future.

D. V. Smith

vice-principal's message

This year has seen many changes around our Collegiate. Several members of our former teaching staff have left us; some to enjoy the leisure of retirement after making a very valuable contribution to the life of the students of this school; others have received promotions to administrative positions, and we wish them success in their new work. We have been fortunate in the new members who have joined our staff and who have helped so much, not only with the regular work but also with our extra curricular activities during the year.

Then, our long awaited and much needed auditorium has finally materialized and we are now able to enjoy its facilities. It will make a great difference to all our future activities.

However, regardless of changes, the high ideals of West Kildonan Collegiate have been maintained and the traditions established during the years still endure.

I am glad to have this opportunity to thank the teachers and students for their co-operation during this school year.

Congratulations to all the graduates of 1962. May they find happiness and achieve success in their future endeavours.

B. K. McLean.

civilization

"Man is a tool-making animal, and it is tool-making which constitutes civilization."

Man has progressed from primeval times into a complex being. Yet, in spite of his complexity, he is a primitive animal in any situation which can be labelled as an emergency. During a fire, flood, or explosion man's only thought is to save himself and, if possible, to save his family, close friends, and personal belongings. If man had progressed farther, he would instinctively aid others in distress instead of caring only for his own skin. Animals, or what we consider animals (four-footed creatures), do the same thing. In order for man to progress from the state of being an animal, he must become superior to animals not only by thinking and reasoning, but also by applying his reason and belief to an emergency. A man who will aid others when he is in distress has progressed from the animal and barbaric stage.

A tool is a device which enables man to work easier. Since time began, man has made tools to do his work for him. The times when tool-making was at a low level were times of culture. However, because man is ignorant, he begins tool-making and destroys his culture and civilization.

Tool-making has set man above animals to a small degree because animals cannot make tools. Yet animals manage to survive. The ant is one of Nature's smallest creatures — so small that most people tend to disregard it. However, ant colonies are ruled by a monarch. In these colonies every ant has a specific job to do. When that job is done there is time for enjoyment of whatever ants enjoy. Why cannot man develop a culture similar to this? Ants do not make tools yet they thrive.

Man, in his struggle to become a superior being, had forgotten something which the ant has not. He must make tools in order to progress from one level to another. These tools do not help progress — they hinder it. Grecian civilization was not at a peak while the Greeks battled between themselves and fought wars with other nations. When the wars were over the Greeks emerged victorious. Then they concentrated on culture. Their government was democratic — everyone had individual rights unless he violated their moral code. The Grecian philosophers — Plato, Socrates, Aristotle, Demosthenes — were men of culture not of tool-making. These men gave the Grecian civilization a greatness which is unequalled to this day. They proved that true civilization was not based on making tools — constructive or destructive. Instead it was based on the arts — music, art, philosophy, drama.

Civilization cannot develop without tool-making but this tool-making must be confined and controlled so as to benefit mankind — not overwhelm him.

Our present American civilization is not a true culture, because it is based on power, money, material things—tool-making. Gradually we will progress to a state of complete civilization, when, instead of tool-making, culture and art will predominate. Then we will have a true civilization which will benefit mankind and allow him to develop as an individual. The world will truly be in a happier state when we achieve this degree of culture.

a matter of hatred

The sun high overhead cast few shadows, except those in the recessed windows of the lofty grey buildings which lined the street. A howling wind blew through this man-made canyon, whisking the leaves along the gutters. Adams, the doorman, stood in front of the huge apartment building, his uniform immaculately clean, the brass buttons shining, his white gloves spotless. His sharp features were accentuated by angular lines about the mouth and eyes and his skin was taut over bone due to the many years his occupation had exposed him to the elements. He gazed down the deserted street, watching as the wind carried along miniature dust storms in swirling circles down the gutters. A large black limousine turned onto the street a few blocks down, and Adams watched it as it glided silently towards him.

Inside the car, Philip Jamieson scowled deeply as he thought upon the morning's events. Resentment burned deep within him as he thought of the many times that he had placed second to Paul Shannon. He had been counting on the promotion Paul had taken away from him. It had always been like that between them. At school, in sports, with girls, he had always placed second. Well this time Paul had gone too far. His anger mounted as he guided the car towards his apartment building.

Adam's curiosity turned to displeasure as he saw the black hair, the tanned face, and the muscular figure of the man in the driver's seat of the car. In all his years of service at the front of the building he could not think of a more unpleasant tenant. The car stopped and Philip Jamieson got out, striding quickly towards the entrance. As Adams moved to open the door he saw Mrs. Peters mopping the hall. Jamieson passed through the doorway without so much as a word of reply to the cheery greeting offered by Adams. Pushing his way past Mrs. Peters, he made his way towards the self-service elevator which would carry him to his eighth floor residence.

Charles Finlay settled his bulk in the chair behind his desk and settled into its comfortable cushion. He was disturbed that Jamieson had taken the news so badly. However, he felt that he had made the right choice for the manager of the new branch in young Shannon. Philip Jamieson was quite capable in his own right, but his surly disposition just didn't fit in with such an important post. Finlay was aware of the jealousy Philip had of his colleague, and had regretted that the choice had had to be made between them.

His thoughts were interrupted by the entrance of Sandra, his pert young secretary. "I'll be leaving now if you don't need me any more Sir," she said. He glanced at the clock, and realizing that it was indeed time to go home, dismissed her with a silent nod.

Watching her don her coat in the outer office, his thoughts once again turned to Philip Jamieson. He had dated Sandra a few times, Finlay knew, and he suspected that the present close relationship between Paul and herself had done little to increase Philip's liking for Shannon.

Rising from his chair, he crossed the room to where his overcoat hung, and, carrying it over one arm, proceeded down the hall

towards the elevator, still wondering at the bitter reaction of Jamieson to the news of his not having been accepted.

Paul Shannon walked briskly down the street towards home. His appointment had put him on top of the world. As he approached his building he shouted a cheery hello to Adams, stepped through the door as Adams opened it, and moved quickly across the lobby. Stepping into the elevator, he pushed the button for the seventh floor, and a moment later stepped out at his destination, where he walked down the hall humming to himself, stopping only a moment en route to have a few words with Mrs. Peters. He entered his flat, and tossing his coat over a chair, busied himself with the preparation of a quick meal before he went to pick up Sandra.

In the room above, Philip Jamieson mulled over for the hundredth time the plan he had formulated over the long afternoon. Paul was sure to go out tonight, he always did. When he returned home from his evening out with Sandra . . . The thought of her brought anger to him as sudden as the pain of a calf under a branding iron, and his temper flared as hot as that instrument. When Paul returned, he would be waiting, there, in the darkness of the apartment below him, he would dispose of the man that had so long hindered his progress.

The body would be found of course, but the murder would be analyzed as the desperate action of a burglar caught in the act of ramsacking the apartment. Philip would see to that. He glanced at his watch; it was getting late, and he would have to buy a gun. A quick trip to a second hand store, a false name, a few hours wait, and it would all be over.

Straightening his tie, and grabbing his jacket, he left the apartment and headed for the elevator. As he crossed the lobby, he received a sullen glance from Mrs. Peters as she stored her equipment in the utility room, but so intent was he on his mission that he did not notice it, nor was he aware of the piercing eyes of Adams as the doorman watched his progress down the street.

It was some hours later that Mrs. Peters awoke the occupants of the building with her screams. She had discovered the door to Paul Shannon's apartment ajar, and upon entering to investigate, was horrified to find a body sprawled on the floor. The building was in an uproar, and it was but a few minutes before a call to police headquarters had sent a cruiser speeding towards the area.

The elevator rose quickly towards the seventh floor, carrying its four passengers to the scene of the crime. Adams led the way down the hall, marshalled the men into the room and pointed out the body to the two police constables. Bending down, they turned over the corpse from where it lay face down on the floor. Paul Shannon, the fourth passenger, gasped as he saw the features of Philip Jamieson, and was indeed shocked at returning home to find this. Adams felt only a deep sense of personal satisfaction over a job well done.

autumn

Glorious hues of crimson and scarlet blending with gold and bronze clothed the trees in breathtaking beauty, as the Monarch of the Sky climbed above the mists, vapours, and claw-like fingers of clouds that drifted by. Leaves, that once sighed leisurely with the summer breezes as they whispered their secrets to the trees' outstretched arms, now crackled with the autumn winds' impatient tugs, as though protesting their farewells to the trees. Relentlessly blew the wind; the leaves surrendered and helplessly wafted downward, carpeting the earth with a luxurious, bright, brittle blanket. Stark skeletons of trees bereft of scenic glory bravely stood interspaced with dark, gloomy pines prepared to withstand winter's icy grip. The panorama of this scene lingered in my memory as a portrait of Autumn in all its glory.

Valerie Krebs
Room 10

a winter scene

The tiny flakes of snow slowly fell from heaven, creating a carpet of cotton batting upon the frozen ground. They were like delicate pieces of lace against the purple velvet of the darkening sky. The wind stirred, and awoke with the fury of an enraged king. It howled its annoyance and tossed the helpless flakes in wild frenzy. It whistled through the aging bodies of the barren trees and slapped them to attention as it roared its fury to the icy kingdom. It sent Bitter Cold, its right arm, biting and nipping at the unwary souls who dared to ignore the mighty Winter King himself. Then the

treasury of the kingdom burst, and snow poured forth in magnificent gushes, illuminating the clothed sky with streaks of bluish white. Then, caught in the clutches of the angered wind, the snow was whirled and whipped in wild abandon, until the King had vented his resentment in a furious fit. Only then was the snow free to find a haven, as it nestled, tired and worn, upon the brittle ground. Then, as suddenly as it had awakened, the wind began to fade, and the only traces of the fierce blizzard on the painted scene, were the sleepy drifts of white.

a short story

The tree stood amidst the forest and was yet alone. In its uppermost branch, a lark greeted the day for the first time. He seemed to dislike the prospect, for unlike others of his kind, he tried to put his tiny head back into the thin white cup from whence it had come. Then the sun appeared from behind a cloud and he seemed to have a change of heart. He wanted to live.

The boy came running through the forest and stopped breathless at the giant sequoia. His face was tear-stained and dirty, his hair dishevelled. His old denims were torn just below the knee and a trickle of fresh blood could be seen. He sat down and leaned against the friendly old tree.

From his hip pocket, he withdrew a small, but extraordinarily efficient pair of binoculars. He fingered them for some time, turning them over and over. Fresh tears brimmed as his thoughts lingered on this meaningful gift, but he resolutely refrained from crying, wiping his eyes with his shirtsleeve. A faint shot was heard in the distance, but the boy was oblivious to it.

He sat for nearly an hour, trying not to think. The binoculars, whose leather had shone so brilliantly before,

were lying beside him, dusty from the dry ground of midsummer. He seemed to have lost all interest in them.

Suddenly, he heard the rustling of dry leaves. He looked up, disinterested, and saw between the trees, several yards before him, a man dragging something slowly behind him. It was a stag — once noble and beautiful, now tracing a path of blood behind it. The youngster wondered why this animal had been killed, realizing what a worthless slaughter it was, solely for the hunters pleasure and benefit.

The boy thought of this useless death, and suddenly knew that the death he was running away from had not been useless. No, his father's death had some significance. He had died knowing that someone else would live because of him. All at once, the boy wanted to shout to the world that his father had died in saving another's life. He picked up the binoculars, wiped them carefully of dust, and left, a look of pride in his eyes.

Above the spot where he had sat, the young lark was sleeping, its head against its mother's breast.

tide waters

The waves are rocked in a bed of sand,
The breeze caresses the shore,
The trees stand guarding the rocky point
Where seagulls gracefully soar.

A quiet cloaks the painted scene,
The sun shines gently down,
The waves roll lazily here and there,
Topped, with their frothy crown.

Neptune's jewels on the fringe of the lake
Echo the water's roar,
Beautifully etched in mother of pearl
They lie and guard the shore.

The tide is drifting sluggishly
In, from the watery deep,
Dimness, slowly cloaking the land,
Finds Neptune's world asleep.

Activities

clubs combine work & play

The members of W. K. C. I. Camera Club saw increased darkroom facilities and newly acquired skill of picture making come about this year. Members toured local places of interest, photographing what they saw.

The Chess Club was very successful under the presidency of Allan Sampson, with Milton Lecker as Secretary-Treasurer and Mr. Chenoweth as advisor. Wednesdays at noon, members learned fundamentals and techniques of Chess by holding matches and tournaments.

SCIENCE CLUB

The Debating Club proved interesting and informative to its members. President Cal Gutkin and Secretary Hershy Goldin were advised by Mr. Geisbrecht. Two formal debates were held before the student body with Cal Gutkin, Seema Malian, Lewis Udow and Alvin Dolgin debating against students of St. John's and Kelvin High Schools.

The Ham Radio Club was attended by a small number of enthusiasts who were given instructions in code, theory and regulations of ham radio. The club tried diligently but failed to install a radio station at W. K. C. I., due to lack of funds.

The Science Club began work on various projects in the school year under the direction of Frank Goldberg and the advice of Mr. Giesbrecht. Their goal was to produce an unusual entry for the annual Manitoba Science Fair.

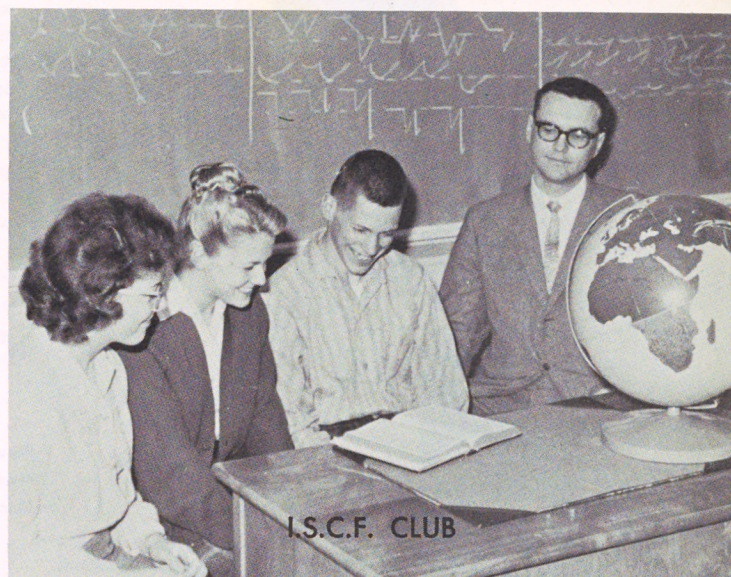

Under the vocillating hands of Bob Still, Lewis Udow and Dale Smutylo, and under the advisorship of Mr. Jewitt and Miss Vigder, the U. N. Club met every Monday noon to discuss world affairs. In April, Lewis Udow and Bob Collison attended M. U. N. A. sponsored by the Rotary International.

The Inter School Christian Fellowship Club met every Tuesday to discuss Christianity and other religions with programs including films and panels. Sharon Cook was President, Ray Lewis, Vice President, Pat Solomon, Secretary and Lynn Harrington, Treasurer with Mr. Isaak acting as advisor.

W. K. C. I. boasts the only Bridge Club in existence in Winnipeg high schools. The members met Fridays at noon to learn the techniques of bridge and in January, a tournament was staged among students, teachers and student-teachers.

the rising sun

"Out of the shadows of night,
The world rolls into light;
It is daybreak everywhere!"

Mankind awakens. Thoughts of self-improvement and success have vanished until the time of repose. Why? What is the impediment that blocks the aspirations and dreams of our sleep? Are not our lives "tinged with the rising sun?"

The sun but rises once a day and "with one eye it vieweth all the world." Its rays envelop a potentious, but procrastinating people — a malingering race lost in time. The indolent, to be sure, hitch their "ladders" to a star, but underestimate their strength and wait perhaps another day. By the time these humdrums of society, and ready to ascend the ladder, its rungs have deteriorated. There is no tomorrow. There is no hope of success. The sun has fallen beyond the horizon.

The glowing sun appears early in the morning, beckoning those in their early years, the youth of today, to awaken and come to their senses, to realize the value and promise of a new day.

Be imaginative; be versatile! Don't put off until tomorrow what you can do today! Hitch your "ladder" to a star but be sure to climb it. When you yourself have caused the sun to rise, you will be resplendent — you will be abounding in success and happiness.

Dear Sigmund

I was nominated to run for S.S., and as you know, I announced at the dance on Friday 13th. This was a super extra bad day, I was terribly afraid I will do something. Could you give me some advice?
Remember, it is Saturday!
S.S.!

I get a ten dollar allowance and I spend it all on clothes. My friends say I spend money extravagantly and that I should be more careful. I say all it is is paper. What do you think?

Yeah, but what paper!

BUNGLING INCOMPETENT RUINS DANCES

The incompetence of our council is robbing us of many dances this year. It is ineffective in holding a dance in the opinion of this paper. I feel that it is a secondary objective. At our last dance the portion was the decision of the customary tradition of a Sweetheart Ball. We have a king and queen, and the decorated throne were the soft dance. Most any dance? Such a waste of money! I am sure that it would be better if we had a more efficient council.

Welcome students of W.K.C.I. to the new feature of Professor Binkley "Weskay Mirror". It is indeed a great honour to be able to join such a select group of literary geni, as this new paper boasts. I only hope that Messrs. Fleisher, Litman, etc., along with Mademoiselles Rathbone et Chula welcome this intrusion to their masterful domain.

by Frank "Lee" Fleisher

The time of year has come when certain things must be told, which I am sure that it would be better if we had a more efficient council. The time of year has come when certain things must be told, which I am sure that it would be better if we had a more efficient council.

We huddled together in tiny room four,
Not knowing what happened behind the closed door,
We were all introduced to Mr. Harrison,
Who picked the leads by using comparison.

We practised until those dreadful exams,
Then stuffed ourselves with turkey and ham.
We came back forgetting all we had learned,
And trying to keep the new leaves we turned.

We practised and practised in small room four,
Until they opened the new gym's door,
Then in we charged, jurymen and all,
And were each allotted to a courtroom stall.

Then the opening night came and so did the jitters,
The curtain was up beholding the dither;
We sang like the birds, including the crows,
And scared the people in the front rows.

The performance was ended, a sigh of relief,
The people applauded, the encore was brief;
Our practice was over, the excitement was down,
And out we went to paint the town.

"Youth, with swift feet walks onward in the way; the land of joy lies all before his eyes." We teenagers are thus aptly described by William Henry Bulwer. As part of today's American youth, we view the world through rose-coloured glasses. We see life in all its splendour and glory; we can visualize a future filled with the magnificence of success; we are optimists. We are truly youthful, not only in years but also in outlook.

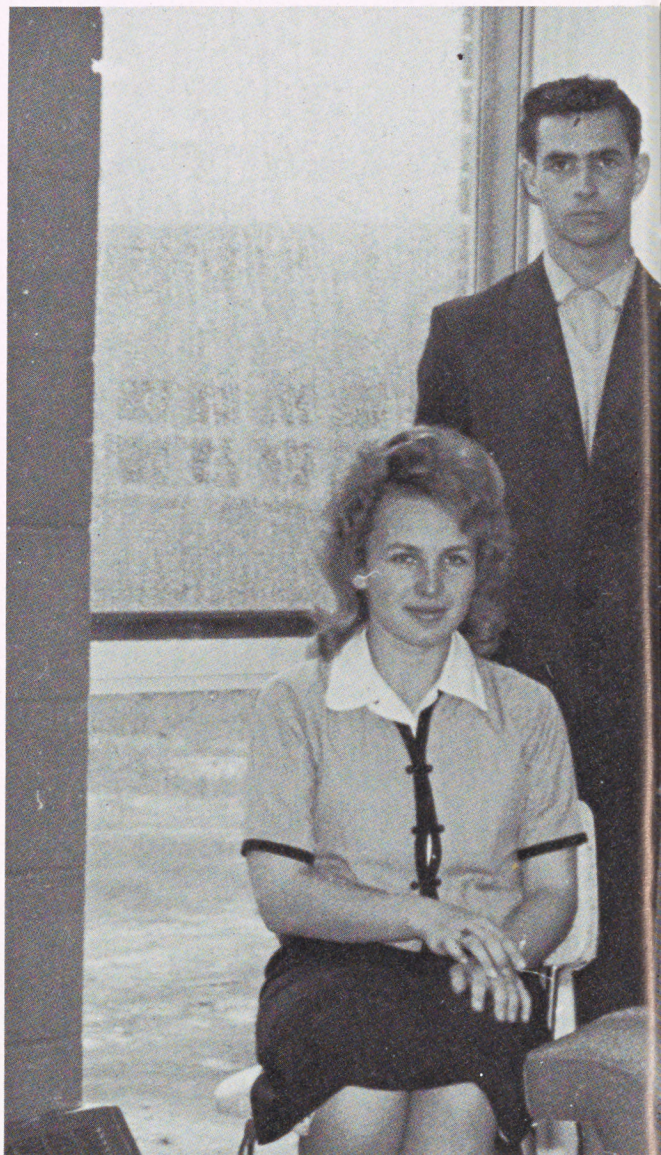

Around us revolves a world full of worry and anxiety, an adult world, on the verge of self-annihilation. If wisdom of maturity and knowledge of experience are incapable of preserving our security, the future of the universe is in the hands of we youth, the leaders of the future, the binding force which holds us together as One World today.

This one world is a chain on which the strongest remaining link is the friendly correspondence and international cooperation showing a "love thy neighbour" policy demonstrated by youth everywhere. We may be the optimists, the inexperienced, the immature, but we love life and hope to have life bestow fortune upon us for many years to come. We are the greatest diplomats alive. We are the present and the future.

What I am attempting to emphasize is NOT that we as youth should deem ourselves capable of controlling the destiny of the world, or that we should develop an inflated ego trying to force our elders to obey our every command; but what I do intend IS that we should take pride in our youth and relative importance to the world, for we bear powers beyond the scope of our elders . . . powers capable of maintaining world peace.

Thus, fellow students, as you head into life keep that 'land of joy' before your eyes for as long as possible . . . for in this way, someday, it may appear in the eyes of all.

magazine drive sparks

school spirit

This year, the Student Council's fund-raising project was a magazine sales-drive, held in November. Mr. Ray Marke, an associate of the Callier Distributing Company, came down and spoke to the students. Pamphlets and forms were distributed and the students canvassed for subscriptions. Approximately \$1200 was raised of which W. K. C. I. retained \$480. Room 5, Gr. X, won the race for magazine sales and secured an afternoon off with a movie. Other prizes such as stuffed dogs, monkeys, and replicas of our beloved O.V. were enthusiastically sought after.

West Kildonan Collegiate's Annual Fall Tea was held on February 1st, the official opening of our new spacious auditorium.

This year, as in former years, students were actively engaged in an inter-room race for ticket sales. Rm. 6, Gr. 12, came out on top and were given an afternoon off at the movies.

Parents contributed home baking and preserves for the Home Cooking table which raised a large sum of money. During school hours, candy was made by the Home Economic's girls and sold to the students. A white elephant sale was organized and very successfully carried out by the Student Council.

On March 21st and 22nd, W. K. C. I's Annual Drama Night was held in the new auditorium.

This very successful program consisted of a three act comedy entitled "Take Three Girls" and featured a different cast each night. The setting was a resort hotel and concerned three nieces of a maiden aunt. The hilarious episodes of the girls, wooed by two charming men, along with the added attraction of a gypsy fortune-teller, impish little girl, and owner of the hotel, provided humorous entertainment for all who attended. The play was ably directed by Mr. Isler. The set and backstage organization was capably handled by Barry Freedman and Ted Becker. Bob Burns and his crew from C. J. A. Y. took films which were shown on his T. V. show.

Muna, held at Grant Park High School on April 27 and 28 was attended by Bob Collison and Lewis Udow of W.K.C.I. representing Liberia. The students were accompanied by Miss Hintz. Matters were discussed with a lively mixture of overheated debate and humour.

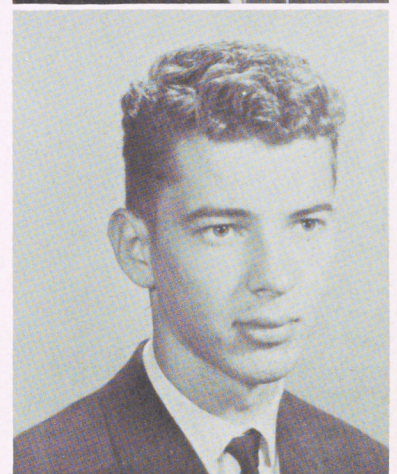

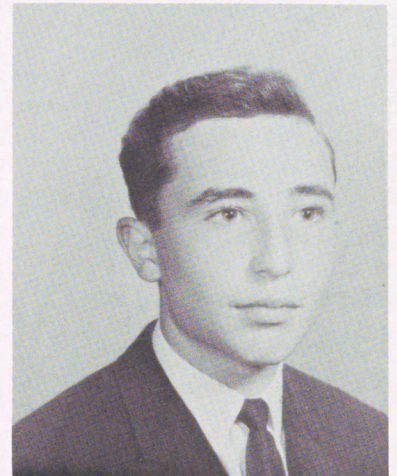

The Science Fair for high school science displays took place at Polo Park, April 26th and 27th. Jack Bidnik, Alvin Dolgin and Garry Claus, all of Room 3, W.K.C.I., entered a "Biddolclaus semi-michro cation group separator," which is an apparatus designed to separate metals into their analytical groups. This original invention, acclaimed by the judges, won first prize in the senior high chemistry division.

This year, Carol Miller and Brian Litman represented W.K.C.I. on radio station's C.K.Y.'s "Collegiate Reporter." Each Sunday at 5:30 on 'KY, sports, social hit parade, and "FEATURE" reports were presented. W.K. was the first with live talent. Soloists Janice Moss and Sylvia Royko were accompanied by pianist Edwina Ferrier.

The victorious team of Charles Lazar, Bob Graf, Bob Collison and Lewis Udow represented W.K.I.C. on CJAY's high school quiz show, "Touchdown Quiz."

Our boys put out a tremendous effort and made Mr. Chenoweth, their coach, and all of W.K.I.C. very proud. For their victory each boy received \$150. from the T. V. station, and a Columbia-Viking Desk Encyclopedia from the Seven Oaks Schoolboard.

The Oratorical Contest, which took place during a Home and School meeting in November, brought additional merits to 'K.C.I. through the merits of Cal Gutkin. For ranking first in the contest Cal received a ten dollar prize from the Student Council while Chuck Birks received five dollars for placing second.

The first dance of the season, the Freshie Dance, officially welcomed the highschool "Freshies." "Dino" Corrie from C.K.Y. graciously crowned Carol Miller of Room 5 as Freshie Queen and Judy Statue as her princess. Entertainment was provided by the Galaxies and soloist, Carol West.

To the "Hallowe'en Hop" students wore costumes, and prizes were awarded to Martin Levin dressed as "Little Leroy" and Rae Richie dressed as a "Southern Belle." Since Mr. Jewitt's birthday fell on the same day, the students gave a roaring cheer for our beloved principal as Don Pensack presented him with a beautiful cake.

The Hawaiian Dance was sponsored by the Sports Council to raise funds for Cheerleader's sweaters. Irene Yackal was chosen "Pineapple Princess" and the Suburban Volleyball team was introduced and congratulated for winning the championship.

grand finale

The grand finale at W.K.C.I. was held on Friday, June 1, and was enthusiastically attended by many Grade XI and XII students. The dance was made a success by the enjoyable music of Jack Shapiro and his band, and by the charming night club atmosphere created by the student council's decorations. The delicious food served in buffet style was catered by Mrs. Herrington. Calvin Gutkin, president, on behalf of the students of 'K.C.I. presented Mr. Jewitt, Miss McLean and Mrs. Smith with gifts. For extra entertainment the well-known boys of Room 9 presented an hilarious arrangement called "Ovie, Ovie Jewitt". All in all the evening was a wonderful ending to a wonderful year.

GRAD BREAKFAST

by Sandi Kushner

Once again as the school term draws to a close, the anxious teachers of the graduating classes look forward to an exciting affair. The event—the annual graduation breakfast. This year, the date is June 13th. Here is a look at what the various rooms are doing.

Room 9, Grade 11, is taking Mr. Wieler, their home-room teacher to the Pancake House, located at Polo Park.

Room 14 decided on the Town 'n' Country as their rendezvous, inviting Mrs. Mattison to join them.

Room 20, although still undecided about where they are going, are very sure they will be with their home room teacher, Mr. Isaak.

Room 23, has said their plans are to go to the Town 'n' Country way, with Miss Dewar, and their maths teacher Mr. Jewitt.

It looks like the Town 'n' Country has done it again, as Room 21 will go there also, accompanied by Miss Vigder and Mr. Watson.

Room 22 has decided upon the Charterhouse, inviting Mr. Caruk.

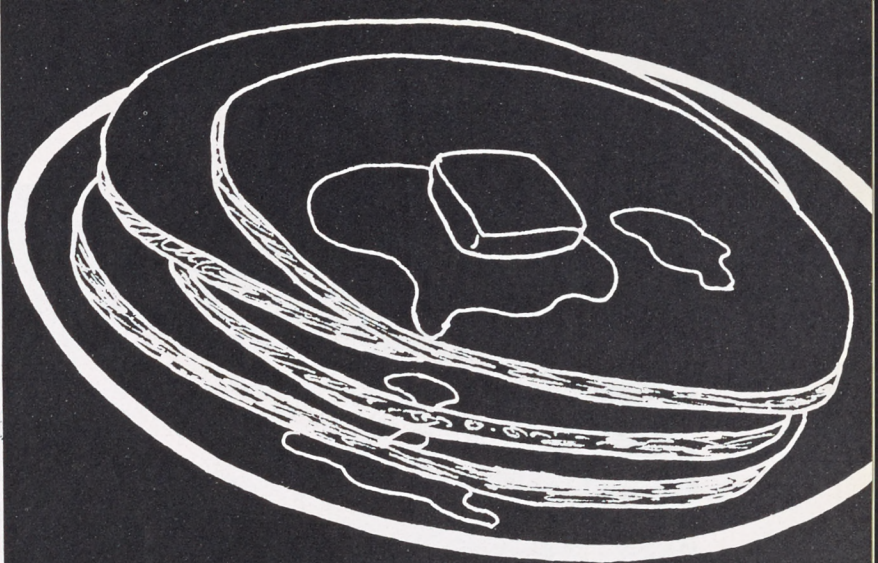

Room 8, will go to the Pancake House, followed by bowling at Empress Lanes. The teachers going are Mr. Isler and Miss Hintz.

Room 11, with Mr. Giesbrecht are going to the Town 'n' Country for a breakfast.

Room 6, instead of the usual breakfast, is having dinner at Miss Esser's apartment. Mrs. York will also be attending.

Another Town 'n' Country breakfast, Room 24 is taking Mr. Stewart, Miss Maclean and Mrs. Smith.

Room 25, also at Town 'n' Country, is taking Mr. Chenoweth, Mrs. Uman, their French teacher; and Mrs. Maltz, their English teacher.

The renowned girls of Room 5 captured the Basketball and Volleyball Championships this year after hard-fought battles against Room 8 in basketball and Room 24 in volleyball. The teams were captained by Diane Zink. The convenor for basketball was Myrtle McEwen; for volleyball, Donna Hanson.

The volleyball team was identical to the basketball team minus Lorraine Carter and with the addition of Carol Miller, Janice Narvey, and Pat Ulicki.

Front: Judy Honer; Myrtle McEwen;
Back: Joan Edmonston; Inga Zabel; Judy Edmonston.

There was lots of action this year in inter-room pin soccer in the form of a knock-out series on the school grounds. Playoffs, however, were delayed so that they could be played in the new gym. After a 2-1 exciting game Room 14 won top honours over Room 8.

Front: Garry Nixdorf; Fred Duna; Arnold Dressler; Ron Merritt;
Back: Doug Elric; Brian Fulsher; Gordon Litwin; Eric Smith.

This year in inter-room hockey Room 20 boys took top honours all-around. With captain Ron Merritt the top scorer of the room, the team went undefeated through regular play and defeated Room 15 in the semi-finals. After this successive string of wins they proceeded to demolish Room 17 in the finals and capture the hockey crown.

Front: Bob Schoettle; Ken Lee; Martin Levin
Back: Sandy Spence; Gordon Anaka; Warner Krempin; Don Sinclair.

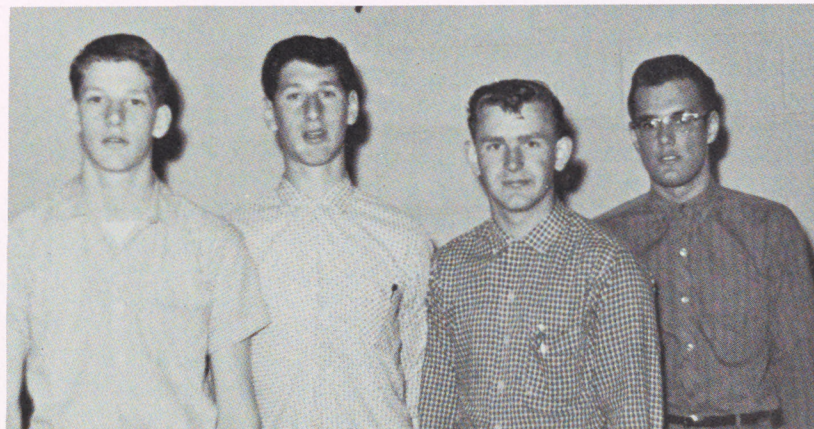

The boys of Room 21 were double winners this year winning the Basketball and Volleyball Championships of the school. The team's captain was Ken Lee. Charles Lazer and Sandy Spence excellently arranged the basketball and volleyball series. In basketball and volleyball the boys were closely pursued by Room 8.

This year in the inter-room soccer a strong grade ten team led by Laurie Armstrong defeated every opposing team. In the semi-finals Room 18 defeated Room 21, 3-0. After winning the semi-finals they won the finals edging out Room 20, 1-0 on a penalty kick.

Front: Jack Moran; Dave Korolyk;
Back: Rob Proudlove; Laurie Armstrong; Maximchuk;
Missing: Ron Derlago; Alex Haleschuk; Bill Durward; Earnie Danusky; Jim MacCaffrey.

For a second consecutive year, flag football was run quite successfully. David Goulding was the convenor and did a commendable job. In the semi-finals Room 22 defeated Room 20, and in the finals Room 22 defeated Room 21.

curling club

The girls' curling club, advised by Miss Dewer and arranged by Diane Schapansky, ice-convenor, had its playoffs for the Rolston-Dewer Trophy. The victors were skip, Maureen Blyth and teammates Bonnie Keston, Jackie Peck, and Miriam Fromson.

Ten teams and a total of forty students participated in the boys' curling club this year. The first event was captured by Brian Litman's team. Charles Lazer's team won the second event with Jerry Hamovich's team capturing the third event.

Our inter-suburban team, skipped by Jerry Hamovich, came first in the second event.

This year in inter-suburban soccer, because of faulty planning, there was only one other team in the league. It was set up so that the winner of a five game series would go into the inter-suburban semi-finals. Transcona eventually defeated our team and the boys failed to get any further in soccer competition for this year.

badminton club

The Badminton Club, a newly formed club this year was received with much enthusiasm by the students of W.K.C.I. Some of the more experienced players were chosen by an elimination tournament to represent the school in the inter-suburban competition. Although W.K.C.I. had no winners much was learned by the participants and everyone enjoyed taking part. It came as a great disappointment to all when, due to unfortunate circumstances the club had to be disbanded.

This year a freshie soccer team was introduced to W.K.C.I. The boys (all of whom are from grade 10) showed the other suburban teams how to play the game. After losing their first game, the team proceeded to win all the remaining games. They won seven in a row. In suburban play-offs they won the finals and became suburban champs. With top scorer, Captain Bill Durward leading the team and goalie Allan Summerton making three shutouts, it looks like our varsity team for the future will be very impressive.

rifle club

The rifle club advised by Mr. Howlett, consisted of twenty-two members. Ron Scott was elected President with Fred Arnold as Vice-President and Warner Krempin as Secretary. The members of the club met once a week at MacGregor Armories, where they shot an average of two targets per person. The club is registered with the Dominion Marksmen Headquarters at Toronto. The members were working towards a shoot-off which took place at the end of the year to determine the best shot.

bowling club

The bowling club had an impressive thirty-two game season this year with Keith Bates, convenor capturing the boys' high average trophy for the second time. Pat Scherbain took the same event in the girls' division as well as the girls' high score trophy with 225. In boys' competition Fred Strewchuk ranked highest with 354. Jerry Schnukal's team received the Kennedy Trophy for the top team aggregate score. Three teams from 'KCI were entered in the Winnipeg Inter-High Bowling Tournament. Our mixed team took the Suburban Title and went on to the Western Canadian High School Bowling Championships at Saratoga.

Once again W.K.C.I. has produced a volleyball team capable enough to hold up W.K.C.I.'s tradition. Many of the boys who played on last year's team tried out again and with the addition of new blood the team gained added spirit and strength. In the regular league play the team piled up an impressive nine win and one lost record. Then it finished first in their division.

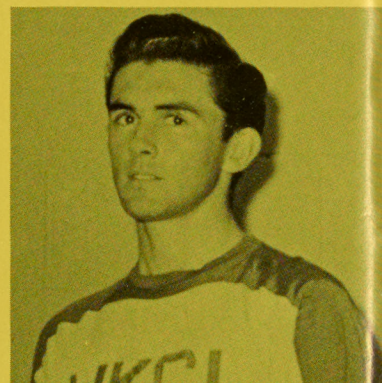

As has happened in previous years both the semi-final and final games were played at the University Field House. In the semi-finals our boys beat the team from Miles Mac in two straight games. Then in the finals our boys were pitted against a power team from Transcona. They lost their first game and were six points down in the second game. Suddenly they snatched victory from defeat and won the remaining two games. Again our boys were crowned the suburban champions.

Our inter-suburban girls did very well again this year with an impressive 10 win - 2 loss record in inter-suburban competition against such teams as Windsor Park, Miles Mac and Nelson Mac. The two losses were to the top team in the league, Transcona, who went on to win the championship.

However with second place in their league the girls went to the University Field House where they met Miles Mac in a three-game semi-final series. Unfortunately, they were defeated in the final game after a tough battle. Keep up the spirits kids, we have better hopes for next year.

Our sincere thanks goes to Mrs. Pierce for her help and "enthusiasm" at games and also to Myrtle Mc Ewen captain of the team.

One can only say that our school basketball team showed an improvement over the past two years and one can hope that this trend will continue in the future. There were five other teams in the league; River East, Transcona, Miles Mac, Nelson Mac, and Windsor Park, all who competed against our team. The boys won five and lost five. They finished off and tied for third and last play-off spot with the team from Miles Mac. In the sudden death game the team lost and were out of further competition.

Since 1941, through our Junior Council,
we have been

Keeping Young with Young Canada

Calvin Gutkin

Frances Zitsow

The youthful enthusiasm and energy of the 20 Junior Council groups and the 16 Junior executive groups, (they started in 1946) we have been privileged to work with has kept us very much in touch with the needs and desires of the High School students in Metropolitan Winnipeg. The representatives each year have been of outstanding calibre, and we are particularly proud of the 1961 - 1962 Junior Executive and Junior Councillors, many of whom have achieved academic distinction.

Chosen for high academic standing, personality, and interest and participation in student activities, through practical experience in selling and informative discussion each week, they are learning the fundamentals of modern retail business methods and merchandising.

The billows smooth and bright —
And this was odd, because it was
The middle of the night.
